

# Project Portfolio

## Converged Network Provider

Regiments is an integrated team of like-minded professionals, uniquely skilled in delivering end-to-end socio-economic development solutions within the public sector and select nodes of private business.

Leveraging our deep understanding of government's needs, we focus on social and economic infrastructure projects, thereby assisting our partners to fulfill their development mandates. With integrated advisory, financing and investment solutions that contribute to South Africa's transformation imperatives, we build our success on:

- Solving national problems
- A team that represents the national demographic
- Training and developing people
